HOSTETTER'S STOMACH BITTERS.

The proprietors and manufacturers of HOS-TETTER'S CELEBRATED STOMACH BIT-PERS can appeal with perfect confidence to physicians and citizens generally of the United States, because the article has attained a reputation beretofore unknown. All w facts upor this point will speak more powerfully than volumes of bare assertion or blazoning puffery. The consumption of Hostetter's Stough Bitters for the last year amounted to over a half-million bottles, and from its manifest steady nerease in times part, it is evident that during the coming year the consumption will reach could mover have been sold but for the rare modicinal properties contained in the prepara-tion, and the souction of the tool prominent physicians in those sections of the country where the article is best known, who not only re ready at all the extragive tes immuniche to its facacy in all cross of to madific derate emeats nd the di ea er resulting theretro

To be able to state confidently that the "Bitters" are a certain cure for the Dy-pelein und like diseases, is to the proprie of an source of an alloyed pleasure. It removes all rachida attor from the storach, parities the blood, and imports renewed vitality to the nervour system, giving it that terms and energy and pensable for the restoration of health. Elderly persons may use the Pitters daily as per directions on the bottle, and to cyvill find nit a stimulant peculiarly adapted countert inviviating to the lowels, excellent as a tonic, and rejuvenating generally. We have the rvide ee of the assues of agel meneral woren who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. A few words to the gentler sex. There are certain periods when their cares are so baras ing that many of them sink under the trial. The relation of mother sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to feight her own health in her extreme anxiety for her in fant. Should the period of maternity arrive diving the summer season, the wear of body and united is generally aggravated. Here, that, is a necessity for a stimulant to recuperate the energies of the system and enable the rate the energies of the system, and enable the mother to bear up under her exhausting trias and responsibilities. Nursing methers generally prefer the Bitters to all other invigora tors that receive the endorsement of physicians, because it is agreeable to the taste as well as certain to give a permanent increase

of bodily strength. All those persons, to whom we have particularly referred above, to wit: sufferers from fever and ague, caused by malaria, diarrhoea, dysentery, indigestion, loss of appetite, and all diseases or deraugements of the stomach, superannuated invalids, persons of scdentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hos-tetter's Celebrated Stomach Bitters a trial. THE ANALGAMATION OF LANGUAGE .- There is a The AMALAMATION Of LANGUAGE .— There is a growing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cephalic, which is from the Greek, signifying "for the head." is now hecoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon he used in a more general way, and the word Cephalic will become us common as Electrotype and many others. coince us common as Electrotype and many others, whose distinction as foreign words has been worn away by common usage, until they seem "native and to the manor bern.

Il cadache is the favorite sign by which na ture makes known any deviation whatever from natural state of the brain, and viewed in this light it may be looked on as a safeguard, intended to give notice of disease which might otherwise esape attention till too late to be remedied; uud its ndications should never benegteeted. Headaches nay be classified under two names, viz: Symptomatic and Idiopathic. Symptomatic Headache i exceedingly common, and is the precursor of : great variety of diseases, among which ure Apo plexy, Gout. Rhoumatism, and all febrile diseases In its nervous form it is sympathetic of disease of the stomach constituting sick headache, of hepati disense constituting bilions headache, of worms, constipation and other disorders of the bowels, as well us renal and uterine affection. Diseases of the heart are very frequently attended with Head-aches; Anæmin and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous headache, som times coming on suddenly in a state of apparently sound health and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or accibity of temper. In most instances the eyes, and sometimes provoking comiting; under this class may also be named Newalgia. For the treatment of either class of Headache the Cephalic Pills have been tound a sure and safe

Constipation or Costiveness.

No one of the "many ills flesh is beir to" is so prevalent, so little nuderstood, and so much neg lected as Costiveness. Often originating in care-lessness, or sedentary habits; it is regarded as a slight disorder of two little consequence to excit anxiety, while in reality it is the procursor and companion of many of the most futul and dangerous diseases, and naless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant are Headache, Colic, Rheumatism. Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abeesses, Dysentary, Diarrhæ, Apoplexy Epilepsy, Paralysis, Hysteria, Hypochondriasis Melamboly and Insanity, first indicate their presence in the system by this alarming symptom Not unfrequently the disease named originate in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and to person should weglect to get a hox of Cephalic Fills on the first appearance of the complaint, as their timely use will expel the insiduous approaches of disease and destroy this dangerons foe to human life.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no location health. lasting health. Sooner or later something must go wrong, and the great machinery of

life is disordered or overthrown. Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla,

or any thing else. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsajarilla, but often no eurative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cleat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on
